

SCHOOL OF BUSINESS FINANCE

— FOUR-YEAR PLAN —

ABOUT

The Finance program provides students with a versatile education that will equip them for their future careers. The curriculum aligns with our university mission “to make Christlike disciples through higher education.” This is accomplished by developing a knowledge base and skill set that will help them personally, professionally, and spiritually.

Graduates go on to careers as financial advisors, financial analysts, stock brokers, real estate investors, bankers, insurance agents, and corporate executives. Finance careers provide significant opportunities to serve individuals and organizations to manage and maximize their wealth. These professionals can make a tremendous difference in directing resources to better their communities. Students are expected to complete an internship during their junior or senior year so they apply what they learn in the classroom in their potential future careers.
