

SCHOOL OF BUSINESS

— FOUR YEAR PLAN —

ABOUT

The Management degree provides students with leadership experience in a faith-based environment that aligns with the university's mission "to make Christlike disciples in higher education." Management students engage in business simulations that reflect what managers do daily: plan, organize, motivate, and control operations.

Graduates go on to careers successful careers in the for-profit, not-for-profit, and governmental industries because all organizations are guided by management principles. Students are highly encouraged to complete an internship in their junior or senior year(s) to provide an opportunity to apply their education in a professional environment.
