EARLY CHILDHOOD EDUCATION

ABOUT

If you're interested in teaching young children and helping early age learners grow and develop through positive learning experiences, the SNU Early Childhood Education program provides individuals the knowledge, skills and dispositions to become effective teachers that positively impact student learning. The Early Childhood Education program prepares teachers for grades Pre-K through 3.

This program includes meaningful content knowledge for teaching early learners, as well as opportunities to apply this knowledge through hands-on, practical experiences such as field experiences, classroom observations and clinical practice (student teaching) at the SNU Lab School (Oklahoma state accredited private PK-8 school), as well as in area public school districts.

The Early Childhood Education programs is fully accredited and recognized by the Oklahoma State Department of Education and by state and national accreditation organizations.
